

KEVIN PATRICK CORBETT

PRE-COVID:

Completed art education (University of Reading, 1977-79; UCL's Slade School of Art, 1979-81) before starting a nursing career in acute medicine, HIV/AIDS and primary care with subsequent career in university teaching and research <https://www.linkedin.com/in/dr-kevin-p-corbett-phd-7a176b71/> Postgraduate nursing research was an experimental study based on the physiology of inhalation (MSc, Kings College 1989) [Enhancing inhaler techniques : a patient education study - King's College London \(kcl.ac.uk\)](#). Further self-funded research (1995-2001) in science and technology studies analysed users' experiences of 'HIV diagnostic' technologies (PhD, London South Bank 2002) [Contesting AIDS/HIV : the lay reception of biomedical knowledge / Kevin Patrick Corbett. - British Library \(bl.uk\)](#) - these technologies were in the guise of antibody-tests, T cell counts and the Polymerase Chain Reaction e.g. [“You've Got it, You May Have it, You Haven't Got it”: Multiplicity, Heterogeneity, and the Unintended Consequences of HIV-related Tests - Kevin P. Corbett, 2009 \(sagepub.com\)](#). Subsequent health research used both quantitative/qualitative approaches, participatory research designs and focus groups/Delphi surveys/plus other action-oriented approaches; all with funding derived from NHS sources and undertaken as part of teams in university-health service collaboratives e.g. [The importance of cancer patients' functional recollections to explore the acceptability of an isometric resistance exercise intervention: A qualitative study - Hashem - 2020 - Health Science Reports - Wiley Online Library](#); and [Effects of preoperative and postoperative resistance exercise interventions on recovery of physical function in patients undergoing abdominal surgery for cancer: a systematic review of randomised controlled trials | BMJ Open Sport & Exercise Medicine](#). Also completed were evaluations for different care providers; analyses of the limits to technical governance inside medical screening services; and research into organisational research integrity/governance. Over thirty years+ of research experience and 'officially' now 'retired'. Most 'pre-Covid' published outputs archived here: <https://eprints.mdx.ac.uk/view/creators/Corbett=3AKevin=3A=3A.html>

POST-COVID:

In April 2020, and based on my doctoral and post-doctoral research, I raised concerns about the isolation (purification) / diagnosis of 'SARS-CoV-2' in an e-mail dialogue with Public Health England's Professor Maria Zambon (Virology: Imperial College London). Zambon was SAGE member and lead UK scientist for 'covid testing'. Zambon received two sets of my questions in April and May 2020, respectively. The outcomes from this dialogue revealed that there had been no isolation (purification) of 'SARS-CoV-2', and that the PCR used had been designed not just without such but without any viral isolates ('fieldwork samples'); so there is no diagnostic gold standard using actual 'virus'. Also revealed was that the W.H.O. had advised governments not to use 'isolation' to underwrite diagnosis. This dialogue was placed in the public domain on the website of Christine Massey in Canada for reasons of transparency - see following link & scroll down for the full dialogue (2 sets of questions that were e-mailed to PHE in 2020 which were answered by Zambon (PHE)):

- initial Qs to PHE & analysis: <https://www.fluoridefreepeel.ca/public-health-englands-answers-to-covid-19-testing-questions/>
- follow on questions to PHE & PHE reply: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/02/May-2020-Q-and-A-emails-Dr.-Corbett-and-PHE-plus-attachment.pdf>

Based on the above, I collaborated on efforts to have the PCR test and the PCR paper Zambon had collaborated on with Christian Drosten **retracted** e.g. the Corman Drosten Review Report: [Review report Corman-Drosten et al. Eurosurveillance 2020 – CORMAN-DROSTEN REVIEW REPORT \(cormandrostenreview.com\)](#) and publicly campaigned on the lack of isolation (purification) with many activists and scientists e.g. <https://www.gopetition.com/petitions/if-theres-no-proof-the-virus-exists-end-all-lockdownsmaskstraxvax-actions-2.html>
